

# The Italo Wing & Italo Function Centre

*Catering to the needs of people living with dementia.  
Ready for occupation in August 2018*

Renowned for our expertise in aged care, we had long aspired to opening a new wing that would specifically cater to people living with dementia: a dream that has become a reality, through the generous bequest of Mr Italo Mazzola.

Scheduled for occupation in August 2018, the Italo Wing, will consist of 10 secure dementia specific units.

## **UNITS**

The units are larger than the average size of similar category lodgings. Each state of the art, airy room featuring circadian lighting, comes with a King Size single bed and a generously sized en-suite.

Bathrooms are fully equipped with appropriate facilities such as grab rails and shower seats.

In addition, 7 rooms overlook the shimmering waters of Lake Illawarra and the escarpment.

## **DINING / FUNCTION AREAS**

The Italo Wing will include a dining room, spacious recreation areas and access to the main facility.

Level 3 of the new wing will house a function room with a 70 person capacity, kitchen, wheel-chair accessible bathrooms, hearing loop and other amenities that cater to the varying needs of both residents and visitors.
